

Our business, LIGHT MY SPACE LTD is committed to combatting slavery and human trafficking in its business and supply chains, and we make this statement to assist with compliance with the Modern Slavery Act 2015. This statement relates to the financial year ending 31ST MAY, 2024.

As our business has a turnover of less than £36 million, we do not have a legal obligation to produce a modern slavery statement. However:

- a. We agree that exploitation within all supply chains ending in the UK is a blight on our society, and we are committed to playing our part in eliminating exploitation;
- b. We understand that customers with obligations under the Modern Slavery Act 2015 cannot comply with those duties without our cooperation.

To that end, we confirm that we have examined our own business and, to the extent that it is reasonably practicable, businesses within our supply chain and we confirm the following:

- a. We confirm that within our own business, no relevant offence relating to slavery or human tracking has been committed.
- b. We have made enquiries of businesses that supply directly to us and we are confident that no relevant offence is committed in that business.
- c. Insofar as it was reasonably practicable, we have examined our supply chains and confirm that we found no evidence of slavery or human trafficking. If such offences are found, we are committed to taking steps to alter our supply chain if necessary.

Further details about our business and supply chain are provided below.

Our business provides specialist lighting advice and design services including, but not limited to: lighting layout plans; specification and supply of lighting units and components; set up and programming of Bluetooth controls; lumen/lux assessments; ecolighting reports to support planning applications and mitigate conditions.

We are an independent, family-owned and run business with 2 company directors with equal share in the business. Our business is registered and based in Porton, Salisbury.

We operate in the UK and source products primarily from within the UK and EU and some specialist components direct from 2 suppliers in Shenzhen, China with whom we have traded since 2018.

We understand that certain industry sectors and geographical regions entail greater risk of exploitation than others. We do not believe that our supply chain is in one of those sectors. Where it is reasonably practicable, we ensure that businesses in our supply chain have made a similar statement relating to slavery and human trafficking.

The person in our business responsible for assessing matters relating to slavery and human trafficking is: I V BLAKE [Director]

We also encourage all employees to report on any matters relating to slavery or human trafficking in our supply chains of which they become aware.
